(1) Clinical signs recorded during hospitalization. Note that study inclusion criteria were based on reported symptoms at time of hospital admission.

(2) Age of patient at time of hospitalization. y, years; m, months.

Retro-orbital pain  
Headache  
Dehydration  
Myalgia  
Arthralgia  
Periorbital edema  
Facial edema  
Mottled skin  
Distal coldness  
Shock  
Respiratory difficulty  
Irregular respiration  
Cough  
Rhonchi  
Crackle  
Wheezing  
Pneumonia  
Intercostal retractions  
Abdominal tenderness  
Abdominal pain  
Intermittent pain  
Continuous pain  
Abdominal distension  
Ascites  
Jaundice  
Macular exanthem  
Papular exanthem  
Maculopapular exanthem  
Erythema  
Flushed face  
Tourniquet test positive  
Lethargy  
Bleeding  
Petechiae  
Hemoptysis  
Epistaxis  
Melena  
Subconjunctival hemorrhage  
Hepatomegaly  
Splenomegaly
